

# CUTTING IT CLOSE CAN CUT YOUR LIFE SHORT

## AGGRESSIVE OFFENSE LOSES TO AN AGGRESSIVE DEFENSE

Speeding and aggressive driving kills and the facts are clear: 36,000 people lose their lives each year on our roadways. This fact is compounded when driving recklessly around large trucks and buses. The actions of BOTH car and truck drivers contribute to 88 percent of all crashes involving large trucks.

In our playbook, there are two scenarios: you pass safely or we will intercept you.

“**Operation Safe Driver**” is a campaign concentrating on the unsafe driving practices of commercial and non-commercial drivers. It is intended to improve driver behavior and performance through effective enforcement, education and awareness strategies.
