

CVSA RAM Subcommittee Meeting
San Diego, CA
QUALCOMM Headquarters
2/28/06

- Attendees
 - **Michael Bray**, QUALOCMM
 - **Bruce Kynaston**, California Highway Patrol
 - **Allan Turner**, Colorado State Patrol
 - **Reggie Bunner**, WV PSC
 - **Bill Reese**, Idaho State Police
 - **Kelly Horn**, Illinois Emergency Management Agency
 - **Larry Stern**, Commercial Vehicle Safety Alliance
- Next meeting – 4/23 in Hartford
 - Sunday Morning
- Still working w/Sandia Labs
- DOE security topic group questionnaire
 - All security issues to states
 - Nothing originally from law enforcement – Larry was put on committee
 - Monthly conference calls
 - Next is 3/2
 - Large portion of questionnaire now related to law enforcement
- Purpose & Goals
 - 4 Regional groups that DOE deals with:
 - DOE Tech Security Topic Group
 - Southern States Energy Board
 - Midwest Council of State Governments
 - Northeast Council of State Governments
 - Need to reference Level 6 inspection program
 - Bruce will make changes and email to group
 - They will then be posted to the CVSA web site
- Review of the past 2 days / Technology Review
 - Bill - Recommendations to DOE should be review of what is out there with our opinions
 - Bruce – should we come up with categories
 - Allan – what is scope?
 - Larry – we are not limited to the Level VI program
 - DOE is not sure what scope should be
 - Allan – Incident Prevention and Management
 - Bill – 6 areas we have covered
 - Level VI/Pre-trip
 - Driver
 - Vehicle Tracking
 - Trailer/Cask Tracking
 - Overall security
 - Incident Prevention & Management
 - Larry - Can trip decal include some type of passive RFID that will have inspection info that can be read?
 - Bruce – integrate into satellite tracking
 - Allan – Maybe decal can be programmable

- Larry – especially the DOE shipments
- Allan – Web site where information is updated by various parties
- Bill – A system already exists where different agencies can share inspection
- Kelly – HRCQ shipments need to have uniform tracking of shipments
- Let's start w/Bill's 6 categories above.
 - Add or revise as necessary
 - Bring ideas to Hartford under these categories
- Could we put out an RFP to have a systems integrator scope a solution comprised of multiple technology providers
- Allan – Can we get a working knowledge of the tracking system used by DOD?
- Allan – We need to look at other mobile comm. providers
 - PeopleNet
 - GeoLogic
 - Terion
 - Skybitz
 - If we ask them for information we need to make sure that they are informed that QUALCOMM is a member of the subcommittee
