RELEASE BRAKES ON SCALES
The last CVSA strategic plan was developed in 2004, with an update in 2010. Realizing the need to identify future directions and priorities for the organization, CVSA initiated a strategic plan review process in January 2015. An environmental scanning phase was carried out in February and March 2015, involving a document review, membership survey, and interviews with government and industry stakeholders.

During the 2015 CVSA Workshop, the Executive Committee reviewed the environmental scan, generated ideas and discussed possible future directions for the organization. In July and August 2015, a discussion paper reflecting the emerging plan was distributed to the membership for input. At the 2015 CVSA Annual Conference and Exhibition, the Executive Committee revised the plan based on feedback received from our members and identified specific strategies for moving forward.

In February 2016, the Executive Committee approved the strategic plan and implementation process. The implementation process was presented to the lead agency contacts at the 2016 CVSA Workshop.
